The majority of players on ROBLOX do not have any way to benefit from the game anymore because they're not willing to pay real money for fake money (robux), so they get bored and quit. They know there is no value in this game so why should they waste their time on it?

Roblox allows its players to promote their games on other websites such as Fiverr and UpWork. American citizens have to file an extension if their promoted games are relevant to them, but the rest of the world does not.

On July 6, 2011 (8:00 PM), ROBLOX released a new website design. The new design was created to give users easier access to ROBLOX's games, forums, groups, etcetera. The design got a lot of criticism from users who preferred the old one, but eventually it was adopted as the more popular choice.

You are paying for a product that doesn't exist. You wouldn't pay for an airline ticket without knowing when the flight has left the gate or whether it would ever take off. It is unethical to purchase Robux (robux) without knowing how they are stored or used within ROBLOX's software. You shouldn't be forced to pay for something in which you have no ability to benefit from what you're paying for.

On August 28th, 2019 ROBLOX announced the discontinuation of ROBLOX Custom Physics in favor of Bloxlet. This will eventually be released as an update so that all games made for Classic ROBLOX mode will automatically have the new physics system in place, but there is an unknown future for what will happen to those games when the discontinuation happens.
